1 Introduction

There is a **theory** which states that *if ever anyone discovers exactly what the Universe is for and why it is here, it will instantly disappear and be replaced by something even more bizarre and inexplicable* [MBF⁺90]. For more details look at the Figure 1.

There is another **theory** which states that *this has already happened* [ACMH03]. The authors present the stars, show a nice picture of the moon, and laugh out loud because they drink a lot of alcohol.

Figure 1: The Universe

2 Conclusion

“I always thought something was fundamentally wrong with the universe” [Ada95].
